1. A licence granted for the manufacture of salt for sale to Government shall contain the following conditions :—

(i) That the licensee shall manufacture the quantities of salt specified in the factory register against his name at the rates of kudivaram therein prescribed, and in the manner laid down from time to time under the orders of the Commissioner. He shall take care that it is of good quality to the satisfaction of the officer in charge of the factory, and shall be responsible for its safe delivery.

(ii) That should the licensee manufacture salt in contravention of the methods of manufacture laid down or should the quality of the salt manufactured be found bad, the licensee shall be liable to forfeit all right of kudivaram thereto, and the factory officer may destroy such salt by throwing it back into the channels or reservoirs.

(iii) That the salt shall be removed from the pans to the drying grounds and from the drying grounds to the place of storage, under such rules as may be prescribed by the Commissioner from time to time and the licensee shall be bound to allow all other licensees and their labourers such reasonable rights of way over the ridges of his pans as may be necessary for the carrying out of such rules as may from time to time be prescribed by the Commissioner under this condition.

(iv) That if any frauds are proved on the part of the licensee, or on the part of his servants with his connivance or privity, he shall, in addition to any penalty that may by law be imposed in that behalf, also forfeit his pans; and that he shall not employ as servants men against whom frauds have been proved.

(v) That the licensee shall commence and close manufacture within such dates as may be prescribed by the Assistant Commissioner of the subdivision.

2 A licence for the manufacture of salt for general sale shall contain the following conditions:—

(i) That the licensee shall commence and close manufacture within such dates as may be prescribed by the Commissioner of Salt, Abkari and Separate Revenue, and shall at the commencement of each manufacturing season intimate in writing to the officer in charge of the circle the number and extent of the pans he intends to work in that season. He shall, in any year in which notice shall be given him by the Commissioner, manufacture salt with due diligence to the full capacity of his holding.

(iii) That should the licensee manufacture salt in contravention of the method of manufacture laid down, or should the quality of the salt be found bad, the factory officer may destroy such salt by throwing it back into the channels or reservoirs at the expense of the licensee.

(iv) That the salt shall be removed from the pans to the drying grounds and from the drying grounds to the place of storage under such rules as may be prescribed from time to time by the Commissioner and the licensee shall be bound to allow all other licensees and their labourers such reasonable rights of way over the ridges of his pans as may be necessary for the carrying out of such rules as may be prescribed by the Commissioner under this condition.

(v) That the salt manufactured shall be stored in such places and in such manner as the Commissioner may from time to time authorize and direct.

(vi) That the salt shall be weighed both when stored and when sold under the supervision of the officers of the Salt, Abkari and Customs Department with the scales provided by Government for the purpose, in such manner and at such times as the Commissioner may from time to time direct.

(vii) (a) That all officers of the Salt, Abkari and Customs Department and all gazetted officers of other departments shall have free passage over the works and be at liberty to examine the salt in store at any time.

(b) That the licensee and his servants shall have access to the places where salt may be manufactured and stored only during such hours as the Commissioner may fix for the purpose.

(viii) That the licensee shall engage, in conjunction with the other licensees of the salt factory—

(a) To construct and maintain (at his own expense) in good repair, and to the satisfaction of the Commissioner, all roads, channels, reservoirs, embankments, drying grounds, platforms and other works within the factory used or intended to be used for the manufacture and storage of salt, and also all works, wherever situated, for the protection of the factory from inundation, or for the supply of brine.

(b) That in case of any dispute arising as to the liability of the licensee under clause (a) above, the matter shall be referred for the orders of the Assistant Commissioner of the subdivision and his decision shall be final.

(c) That if the Commissioner considers that there has been any failure on the part of the licensees of the salt factory to fulfil their liabilities under clause (a) above, or with the sanction of the Governor in Council whenever it appears desirable that any such work should be undertaken by the Salt, Abkari and Customs Department, or whenever the licensees of a factory themselves desire that any of the works which they have to execute should be undertaken by the Salt Department on their behalf, the Commissioner may cause such works to be executed and may recover from the licensee his portion of the cost thereof in such proportions as may seem fit.

(ix) That the licensee shall engage to pay such rent or assessment as the Commissioner may fix for the use of lands and buildings either belonging to Government or assessable to Government revenue and occupied by the licensee for the purpose of the manufacture and storage of salt; and in proportion to the size of his holding in the factory for the Government land used for any purpose incidental to the manufacture of salt.

(x) That on the close of manufacture the licensee shall drain off all brine from his condensers and crystallizing beds to the satisfaction of the officer in charge of the factory in such a manner as to prevent the formation of spontaneous salt. Should salt form in his pans subsequently, the officer in charge of the factory may destroy it at the licensee's expense.

(xi) That the licensee shall agree not to have any pecuniary dealings of any kind whatever with the officials of the Salt, Abkari and Customs Department.

(xii) That the licensee shall obey all lawful orders issued by the officer in charge of the factory relating to the manufacture and storage of salt and to the general discipline of the factory, subject to appeal to the higher authorities.

(xiii) That the licensee shall agree to observe and keep all further conditions for the continuing of his licence which the Board of Revenue shall prescribe, and shall, when called upon, deliver up his license for amendment or for the issue of a fresh licence in accordance therewith.

No. 381.—The following Quarantine Order (No. 39) issued by the United States Department of Agriculture is republished :—

UNITED STATES DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
FEDERAL HORTICULTURAL BOARD.

Quarantine on Account of Flag Smut and Take-all Diseases.

Notice of Quarantine No. 39 (with regulations).

(Effective on and after August 15, 1919.)

The fact has been determined by the Secretary of Agriculture, and notice is hereby given, that two dangerous plant diseases, namely, flag smut (Urocystis tritici) and take-all (Ophiobolus graminis), not heretofore widely prevalent or distributed within and throughout the United States, exist in Australia ; that flag smut is known to exist also in India and Japan, and take-all in Italy, France, Germany, Belgium, Great Britain, Ireland and Brazil, as well as Australia. The flag smut disease affects wheat (Triticum), and the take-all disease affects wheat (Triticum), oats (Avena), barley (Hordeum), rye (Secale) and rice (Oryza).

Now, therefore, I, Clarence Ousley, Acting Secretary of Agriculture, under the authority conferred by the Act of Congress approved August 20, 1912, known as the Plant Quarantine Act (37 Stat. 315), do hereby declare that it is necessary, in order to prevent the further introduction into the United States of the dangerous plant diseases mentioned above, to forbid absolutely, effective August 15, 1919, the importation into the United States of seed or paddy rice (Oryza spp.) and of all species and varieties of wheat (Triticum spp.) oats (Avena spp.), barley (Hordeum spp.), and rye (Secale spp.), in the raw or uncleaned or unprocessed state, from the countries and localities above mentioned, except on compliance with the following regulations.

REGULATIONS GOVERNING ENTRY OF WHEAT, OATS, BARLEY AND RYE.

Regulation 1—*Applications for Permits*.—Persons contemplating the importation of wheat, oats, barley or rye into the United States shall, before same is shipped, make application for a permit on forms provided for that purpose, to the Secretary of Agriculture, Washington, D.C., stating the name and address of the exporter, the country and locality where grown, the port of departure, the proposed port of entry, and the name and address of the importer or of the broker in the United States to whom the permit should be sent.

Regulation 2—*Permits for Entry*.—On approval of an application a permit will be issued in quadruplicate. One copy will be furnished to the applicant for presentation to the Customs officer at the port of entry, one copy will be mailed to the Collector at the port of entry, one copy to the Inspector of the Department of Agriculture at the port of entry and the fourth will

be filed with the application. All permits will be valid from date of issuance until revoked. Permits will be issued for the ports of Seattle and San Francisco and such other ports as may be specified in the permits.

Regulation 3—Marking as Condition of Entry.—Every bag or other container of wheat, oats, barley or rye offered for entry shall be plainly marked with such numbers or marks as will make it easily possible to associate the bags or containers with a particular importation.

Regulation 4—Notice of Arrival of Permittee.—Immediately upon the arrival of the wheat, oats, barley or rye at the port of entry the permittee shall submit in duplicate notice to the Secretary of Agriculture through the Collector of Customs on forms provided for that purpose, stating the number of the permit, the number of bags or other containers of the cereal included, in the shipment, the bag or container numbers or marks, the country and locality where grown, the name and address of the exporter or foreign shipper, the port of departure, date of arrival the name of the ship or vessel, and the designation of the dock where the cereal is to be landed.

Regulation 5—Condition of Entry.—The wheat, oats, barley or rye shall not be removed from the port of entry nor shall any bag or other container thereof be broken or opened except for the purpose of sterilization until a written notice is given to the Collector of Customs by an Inspector of the Department of Agriculture that the wheat, oats, barley or rye has been properly sterilized and released for entry without further restriction so far as the jurisdiction of the Department of Agriculture extends thereto. All apparatus and methods for accomplishing such sterilization must be satisfactory to the Federal Horticultural Board. (i) *Rule* 14.—*Insert* the words 'on the date of nomination' between the words 'not ineligible' and 'to be appointed.'

(ii) *Insert* the following as rule 18-A :—

"Any candidate whose name is included in the list published under rule 16 may withdraw at any time by written notice signed by him and delivered to the chairman, but no candidate who has withdrawn his candidature may subsequently cancel his withdrawal and stand at the same election."

(iii) *Rule* 24.—*Substitute* the following *for* the words "A × shall be placed against the name of the candidate or candidates for whom the vote is given in the column provided for the purpose" :—

"Voters are requested to place a mark against the name of the candidate for whom the vote is given in the column provided for the purpose. 1. The examinations, whether by the second class test prescribed for Indian candidates or by the third class test prescribed for European and Anglo-Indian candidates, will take place on the first or second Wednesday, as may be ordered by the Board of Examiners, in January and July every year at local centres which will be notified. The examinations will be held by a committee consisting of a Chairman and one or two members.

2. A Committee shall be constituted for each language. A Collector or Assistant Collector will be ex-officio chairman of the Committee and the members will include Revenue officers or other Gazetted officers of the Public service qualified to assist in conducting the examination.

3. The examination shall be open to candidates in the service of Government, who draw a salary of Rs. 125 and above and have passed the Revenue test and the Criminal Judicial test.

Opinion.

5. The examination should deal with revenue matters, and with a view to test the candidate's ability to converse in the language according to the second-class test he should be required to carry on conversation with a vernacular clerk, a ryot and a coolie for at least five minutes each on subjects essentially different. He should possess a good colloquial knowledge of the language. In testing the candidates' qualification in manuscript reading one or two manuscripts of moderate difficulty written in a plain running office hand should be given them to read and must be read with fluency and translated correctly. Under subject 3 the test may be applied as follows :—A person will make a statement in narrative form in the vernacular. The candidate must record the statements in English accurately as they are delivered and then read them over to the deponent in the vernacular with a view to ascertain whether the statements have been correctly recorded making such additions or alterations as may be found necessary. Under subject 4 he must dictate off-hand with some fluency the translation into the vernacular of an English report or other official paper to be furnished by the Board of Examiners. In subject 5 the paper on 'Translation from English into vernacular' will also be furnished by the Board of Examiners. The translation must be substantially correct in meaning and intelligible to an Indian, tolerably correct in grammar and spelling and free from any bad errors of idiom.

6. In the third-class test the candidate will be required to possess a fair colloquial acquaintance with the language to translate correctly into English an official vernacular report read out to him, to translate orders in the language and to read ordinary ornate.

7. Blank forms of reports showing the nature of the tests will be furnished by the Board of Examiners. They should be filled in by the committee and returned to this office as soon as the examinations are over. Column 3 of the report is intended to show how the candidates have acquitted themselves in the examinations. Under 'Opinion' it should be stated whether they have passed or not. The dates on which the examinations began and ended should be specified in the reports. At foot of the report the Committee will remark whether the candidate was found so negligent in preparing himself for the examination as not to be entitled to travelling allowance. Three copies of the printed nominal list for each centre will be furnished by the Board of Examiners. The question paper for subject 3 of the second class vernacular test is common to all languages and candidates appearing for two languages by the full test should be required to render the English passage into both vernaculars. The petitions for subject 2 may be selected from the records

of the Collector's office and those for the use of candidates coming up in the language other than that of the district must be obtained from the office of the Collector of the nearest district where the language or languages are spoken. The above procedure should be followed in the selection of persons with whom the candidates are to converse.

8. A candidate coming in half an hour after the appointed time should not be admitted to the examination.

9. No candidate should be allowed to leave the examination room till he has given up his answer paper and till the expiration of at least half an hour after the question paper has been given out, and having left he should not be allowed to return.

10. The question paper should be distributed exactly at the hour entered in the time-table, but if the Chairman is unavoidably prevented from doing so, the full time allowed for the paper must be given. The answer papers must at once be collected on the expiration of the time allowed and no candidate should be permitted to retain his paper longer.

11. Any candidate, whose name is not to be found in the printed nominal list furnished to the Chairman, may, notwithstanding, be admitted to the examination, if he submits a written statement declaring that he applied for admission to the examination. The name of the candidate and all other particulars regarding him, for which there are columns, should be entered in the nominal list.

12. Each Chairman is expected to look after the arrangements of the examination room personally.

13. Each Chairman will, as early as possible after the close of the examination, furnish the Secretary to the Board of Examiners, Chepauk, Madras, with a brief report on the examination. He will also return the statements of marks signed and dated by the committee and the printed list of candidates with the names of the absentees marked in red ink.

14. As there is reason to suspect that pens and inkhis are, by previous concert, made the means of communication between candidates in the room as well as between candidates and their friends and monshis outside, they should be carefully watched and should not be permitted to leave the room while the examination is going on—except in case of urgent necessity. During the hours of examination care should be taken to see that no person loiters about the examination hall, in the veranda or in the adjoining rooms or in the compound.

FIRST REPORT ON THE GROUNDNUT CROP OF 1919-20.

(On an average of the five years ending 1917-18, the area under groundnut in the Madras Presidency has represented some 70·2 per cent of the total area under groundnut in British India.)

The area sown with groundnut up to the end of September 1919 is estimated at 919,300 acres which is 11·2 per cent above the estimate made on the corresponding date last year. The season has been generally favourable. The decrease in the Arcots is due to the fact that the ryots raised

gingelly in preference to groundnut owing to good rains in the early part of the season. The recent rains have been beneficial to the crop. Details by districts are given below :—

3. The bids will be made per ton.

4 The sales will be subject to confirmation by the Conservator of Forests who does not bind himself to accept the highest or any bid.

5. Each purchaser shall, immediately after a lot is knocked down to him, sign his name at the foot of the sale list in the column provided for the purpose. Such signature will be held as no admission on his part of having bought the lot.

6. Immediately after the sale, each purchaser, if his offer has been accepted by the Conservator of Forests for that lot, will be furnished with a memorandum showing the total amount due by him and shall remit 50 per cent of the same into the Bank of Madras at Coimbatore or Madras, within ten days from the date of receipt by him of the memorandum confirming the sale and shall similarly remit the balance due within ninety days of the date of the sale, failing which the money already remitted shall lapse to Government and the District Forest Officer will be at liberty to resell the lot at the risk of the original purchaser who shall be liable for any loss but shall not participate in any profit accruing by the resale.

7. The purchaser must pay the full value and take delivery of the wood before 15th March 1920. If he or his accredited agent does not attend on or before that date for the weighment of the sandalwood purchased, no further weighment will be made, and the weight recorded in the depot books (which is the weight recorded immediately after final cleaning and that notified at the time of sale), must be accepted by him. If, however, on reweighment an excess should be found, the purchaser shall have no title to the excess.

8. On the purchaser's presenting to the Range Officer, Satyamangalam, challans as proof that the whole of his purchase has been paid for it will be weighed in his or his agent's presence. No further cleaning or classification of the sandalwood will be undertaken by the Forest Department nor will purchasers be allowed to clean any wood previous to weighment. The classification, cleaning and weighment as determined by the Forest Department must be accepted. Should any deficiency occur at the time of weighment, the Range Officer, Satyamangalam, will make it good; if an excess is found the purchaser must pay for it at the rate bid for the lot in question.

9. The purchaser will be allowed reasonable time not exceeding one month from the date of delivery after weighment to remove the wood. If the purchaser fails to remove all the wood within that period demurrage will be charged at the rate of two rupees per ton per mensem from the date of sale until the wood is finally removed.

10. No sandalwood shall be removed from the depot till a licence to remove it signed by the officer of the Forest Department who weighed out the wood, shall have been obtained and till every piece of sandalwood that can be stamped has been stamped with the district "sale hammer."

11. The officer conducting the sale shall be at liberty to stop the sale at any time without giving any reason to the intending purchaser.

12. The wood purchased by each purchaser shall lie in the depot at the purchaser's risk from the date of sale until it is removed.

13. Further particulars can be had on application to the District Forest Officer, Coimbatore, North.
